“I work very hard to add value, work efficiently, and be responsive to our clients because I know they are also working hard for us. We have a teamwork type of mentality. I believe it is important to conduct business in a professional way and to be an advocate for our clients. I maintain all office support systems and court/government communications so as to allow our attorneys to quickly and effectively respond to our valued clients' needs. This has helped me to build relationships, establish rapport, and create a team environment with our closest client contacts.”
